

LOCKDOWN SYSTEM AND ACCESSORIES

Haven Lockdown uses a variety of accessories and hubs for egress and code compliance

Key things to know:

Each Lockdown system includes the following:

- 1 Lock
- 1 Green Egress button
- Mounting bracket for inswing and outswing doors
- Mounting Hardware
- USB Cable and Wall Adapter

One of the following accessories is required to enable unlocking from the exterior of the room.

- Generic Key switch
- Ezlo Wireless hub (connects up to 10 locks)

The following accessories are required to enable unlocking from the interior of the room for free egress.

- Green egress button for egress
- Haven motion sensor

Optional accessories.

- Red panic button for locking
- Inswing top cosmetic bracket cover
- Glass aluminum framed door mounting plate
- Wireless hub connected key fob (zwave)

All accessories provided by Haven are certified for use with the system. Use of generic momentary closure accessories is at the buyers own discretion.

Egress Button
Simple, one motion egress button for use upon 'all clear'.

Panic Button
Fast, one motion panic button for immediate Lockdown activation.

Motion Sensor
Motion Activated egress system for use upon 'all clear'.

Generic Key Switch
Momentary closure switch for use on the exterior side of door for unlock capability.

Ezlo Z-wave Smart Hub
Allows remote cloud-based control of lock from outside and supports optional keyfob and other z-wave compatible accessories.

Glass aluminum framed door mounting plate
Allows for mounting on typical glass doors with standard aluminum frame

Inswing top cosmetic bracket cover
Cover the bracket arm for a cleaner installation finish.
